PROFILE

Senior UX & Perception Designer with track record translating complex human cognition research into scalable product architectures for Snapchat, MS SharePoint and Bet365. Specializes in building design systems, intuitive multi domain workflows, and AI-augmented prototyping pipelines that accelerate delivery while maintaining visual precision and accessibility standards. Focused on designing creative, low-latency interfaces for next-generation AI orchestration.

WORK EXPERIENCE

UX Researcher - Designer · **Micro1** · *Remote,In* — Sep 2026 – *Present*

- RL & Reasoning Environments: Build specialized **Reinforced Learning** Environments spanning complex legal and real-world domain constraints to establish benchmark standards (**SWE-WebDev Bench, Design Arena**) and stress-evaluate **frontier model reasoning**.
- Usability & Research Engineering: Conduct meticulous **user research and usability studies** to optimize human feedback loops (**RLHF/RLAIF**), minimizing annotator friction while maximizing data precision.
- Unifying human feedback and real-time model inspection into single high-throughput evaluation pipeline.

Lead UX Consultant · **Paperlite.io** · *Pune, In* — Feb 2026 – August 2026

- Heuristic evaluations, usability audits & design workshops embedded directly in agile sprints.
- **Implemented design system** with reusable components & design tokens; scaled cross-product consistency without redundancy by implementing closed feedback loops
- Conducted extensive UX research, Analytics, and quality validation to deliver Most Delightful Product (MDP) driving **NPS**, **CSAT** and **Digital Experience Scores (DEX)**
- Worked directly under **W3C accessibility contributors**

Lead UX / Usability · **Testlio** · *Remote, In* — Sep 2019 – Feb 2026

- Led UX for Payments, Camera & PDP/PLP across Snapchat, Microsoft SharePoint, and Bet365 — driving measurable **conversion lift** and conducting **UX Governance** based on **Industry trends**
- Built a cross-product design system; Selenium-paired usability testing lifted product quality 40%
- Owned the UI test automation framework; drove **user-centred practice** into daily Scrum ceremonies
- Designed structured usability & exploratory test plans to uncover critical UX friction points
- Embedded agentic AI (Claude, Figma Make, Cursor IDE) into the design-to-dev pipeline

UX Analyst · **Bajaj Motors** · *Pune, In* — Jan 2019 – Aug 2019

- End-to-End Design & Execution: Translated primary research into hi-fi prototypes and friction-free content strategies—achieving 95% success, 10% fewer usability errors, and measurable conversion lifts.
- Quality & Stakeholder Alignment: Implemented accessibility-first test plans and collaborated with key stakeholders to align design solutions with business objectives across all client projects.

SQA Associate · **Expleo Group** · *Pune, In* — June 2014 – Jan 2019

QA & Usability: Led cross-platform (iOS/Android) functionality, unit, and localization testing for tier-1 publishers (Warner Bros., Ubisoft, Bet365), validating high-concurrency payments and real-time betting features across global markets.

KEY PROJECTS

SOCIAL MEDIA
Snapchat
UX Design & localization across 10+ global markets; functional, i18n, UX research and demographic analytics

ENTERPRISE
SharePoint
Enterprise collaboration UX with Microsoft design teams; brand consistency at scale, design revamp inline MS365

FINTECH / iGAMING
Bet365
UI Design & functional usability under peak sporting event traffic; payment validation and extensive UX Analytics

EV TECH
PlugShare
UX validation for EV charging network across EU & US markets; real-time station features for EVs

GAMING
Batman AC, Brothers: TTS
UX Design for critically acclaimed iOS & Android narrative games; concurrent user experience quality and UAT

MEDTECH / HEALTHCARE
Athena Health
Extensive UAT, Passed WCAG 2.1 Accessibility compliance in collaboration with W3C contributors

CORE COMPETENCIES

UX Design	Perception Design	Usability Studies
UX Research	UX Analytics	Accessibility
L10n/i18n	Interaction Design	Design Thinking
User Empathy	Human Centered Design	AI Orchestration

TOOLS & PLATFORMS

Figma	MIRO	JIRA
ContentSquare	Google Analytics	NVDA
CCA	LILT	Frame.io
AdobeXD	Ulzard	Framer

AI MODELS & IDEs

Agentic Design

- Claude Design - Opus, Fable
- Figma Make
- Moda.app
- Google Stitch
- ***Cursor***
- ***v0***

Generative & Research AI

- Midjourney
- Higgsfield AI
- Stable Diffusion
- Suno AI
- ChatGPT 5.5
- Gemini 3.5

Open Source Models:

- Gemma 4B
- Qwen 3.6
- Deepseek V4
- Mistral 7B
- NVIDIA PersonaPlex

EDUCATION

Masters in Computer Application
MCA · Pune University · India

CERTIFICATIONS

- Agentic AI: Planning & Reasoning Design Patterns
- ISTQB CTFL — Certified Tester Foundation
- UX Design: Style Guides & Design Systems
- Customer Experience (CX) for Business Success
- Oracle Certified Associate
- British Council CEFR English Proficiency

LANGUAGES

English, Hindi, Marathi, Russian (Beginner)
